

Therm Line Forte

food supplement

Therm Line® forte is a food supplement which contains the patented citrus fruit and guarana extract Sinetrol®, and an advanced complex of natural substances - **Thermo Blend**, which has been additionally enriched with caffeine and chromium.

The components contained in Sinetrol®, such as guarana and caffeine, support proper body figure and proper fatty tissue levels in healthy adults with weight control issues. While the components present in Thermo Blend - such as green tea support thermogenic processes, the formula also contains chromium, an element which participates in the metabolism of macronutrients.

Składniki
